

Adults working in Year 1 this year:

Teaching Staff:

**Ms Wadud – The Gingerbread Man
class teacher**

**Mrs Begum – Little Red Riding Hood
class teacher**

KS1 support staff:

**Ms Begum, Ms Ali, Ms S. Begum,
Ms Aljilji, Mrs. Felix**

KS1 Phase Leader – Mr. Sturgess

SENDCo – Ms. Rogers

English

In Autumn 1, children will read Beegu and Where the Wild Things Are. They will develop prediction, retrieval, inference, sequencing and summarising skills. In writing, children will explore pattern and rhyme in poetry, write setting descriptions and produce instructions using command sentences and numbered steps.

Maths

Children will develop place value within 10 by counting forwards and backwards, reading and writing numbers, finding one more and one less, and comparing quantities. They will also learn number bonds and addition and subtraction within 10.

History

Children will explore changes within living memory. They will consider how they have grown, investigate the local community and compare shops today with shops from the past.

Science

Children will learn about the four seasons, seasonal weather and changes in day length. They will identify the parts of plants and explore common wild and garden plants, including deciduous and evergreen trees.

PE

Children will develop gymnastics skills by travelling, rolling, balancing, climbing and jumping. They will use mats and benches safely, link actions and perform simple sequences with a partner.

Art

Children will explore drawing and mark-making using different tools and materials. They will create different lines and effects and learn how the drawing surface can change the appearance of their work.

Music

Children will develop their singing voices through echo songs and call-and-response activities. They will learn to recognise and maintain a pulse and steady beat and use these skills in performance.

PSHE

Children will learn about keeping healthy, including handwashing and how germs spread. They will also explore friendship, kindness, feelings, manners, inclusion and respect for others.

Computing

Children will explore digital painting. They will use lines, shapes, paintbrushes and other digital tools to create pictures and compare computer-generated artwork with painting by hand.

Spanish

Children will learn greetings, polite phrases and numbers from one to ten. They will practise asking and answering simple questions about their name, age and quantities.
