

Appendix 1: Children More At Risk of Harm

1. RIGHTS OF THE CHILD

The school upholds the human rights of the child in accordance with the Human Rights Act 1998.¹ It is unlawful for schools to act in a way that is incompatible with the European Convention on Human Rights. Specifically, the school embeds and upholds the following Convention rights of the child across its safeguarding policies and procedures:

- Article 3: the right to freedom from inhuman and degrading treatment (an absolute right)
- Article 8: the right to respect for private and family life (a qualified right) includes a duty to protect individuals' physical and psychological integrity
- Article 14: requires that all of the rights and freedoms set out in the Act must be protected and applied without discrimination
- Protocol 1, Article 2: protects the right to education.

In accordance with the Equality Act 2010, the school must not unlawfully discriminate against pupils because of their sex, race, disability, religion or belief, gender reassignment, pregnancy and maternity, or sexual orientation (protected characteristics). **The school has an Equalities Policy which outlines the expectations of fairness and equality across all aspects of the school's work.** The school is committed to supporting and taking positive action towards children with regard to particular protected characteristics - including disability, sex, sexual orientation, gender reassignment and race- who may be at a disadvantage and be disproportionately vulnerable.

In fulfilment of the school's Public Sector Equality Duty the school has due regard to the need to eliminate unlawful discrimination, harassment, and victimisation (and any other conduct prohibited under the Equality Act), to advance equality of opportunity and foster good relations between those who share a relevant protected characteristic and those who do not.

The school works closely with all stakeholders to ensure that the shared values and commitment to the UNCRC Articles are demonstrated by all. They are reflected in all aspects of the work of the school through curriculum and pastoral support.

As evident in the Serious Case Review Child Q, the school is aware that children from ethnically diverse groups are at risk of adultification whereby their vulnerability as a child is reduced or set aside because of racial bias and stereotypes impacting professional judgement.² All staff share in the whole school's commitment to ensure equity, diversity and inclusion remain at the centre of the school's safeguarding culture, so that all children receive the care, support, and protection they have the right to receive.

The school shares the London Borough of Tower Hamlet's commitment to being an anti-racist borough and to tackle and eliminate race discrimination. The council's Black, Asian, and Minority Ethnic Inequalities Commission (2021) concluded that racism still exists within institutions and structures in the borough and has developed an action plan to achieve race equality at pace.³ The

³ https://www.towerhamlets.gov.uk/lgnl/community_and_living/Inequality-Commission/Black-Asian-and-Minority-Ethnic-Inequalities-Commission.aspx

action plan recognises that schools have a powerful and significant role in changing narratives and bringing about social change through education. The school along with other safeguarding partners is fully committed to implementing the [Tower Hamlets Safeguarding Children Partnership's Anti-Racist Charter](#) (2025) across its safeguarding practice.

2. CHILDREN WHO MAY BE POTENTIALLY MORE AT RISK OF HARM

All staff should recognise that all children are vulnerable but that some children may be more vulnerable than others and at more risk of harm. Children known to a Social Worker, Looked After Children and Care Leavers are likely to have suffered abuse at some point in their childhood and may be more vulnerable to further abuse including exploitation. Staff need to be aware that other children who may be potentially more at risk of harm include

A Child who:

- is a young carer;
- is pregnant and/or is a parent themselves;
- has exhibited early signs of abusive, violent and/or harmful behaviours;
- is showing signs of being drawn in to anti-social or criminal behaviour, including gang involvement and association with organised crime groups or county lines;
- is frequently missing/goes missing from education, home or care
- ~~is frequently missing/goes missing from care or from home;~~
- has been repeatedly removed from the classroom, experienced multiple suspensions, is on a part-time timetable, is at risk of being permanently excluded from schools, colleges and in Alternative Provision or a Pupil Referral Unit
- ~~has experienced multiple suspensions, is at risk of being permanently excluded from schools, colleges and in Alternative Provision or a Pupil Referral Unit.~~
- is at risk of modern slavery, trafficking, sexual and/or criminal exploitation;
- is at risk of being radicalised or exploited;
- has a parent or carer in custody, or is affected by parental offending
- is in a family circumstance presenting challenges for the child, such as drug and alcohol misuse, adult mental health issues and domestic abuse
- is misusing drugs or alcohol themselves;
- has returned home to their family from care; and
- is at risk of so-called honour-based abuse such as Female Genital Mutilation or Forced Marriage;
- is a privately fostered child;
- is persistently absent from education, including persistent absences for part of the school day.
- LGBTQ+ pupils

The fact that a pupil may be LGBTQ+ is not in itself an inherent risk factor for harm; however, staff will be aware that LGBTQ+ pupils can be targeted by other individuals. Staff will also be aware that, in some cases, a pupil who is perceived by others to be LGBTQ+ (whether they are or not) can be just as vulnerable as pupils who identify as LGBTQ+. Staff will also be aware that the risks to these pupils can be compounded when they do not have a trusted adult with whom they can speak openly with. Staff will endeavour to reduce the additional barriers faced by these pupils and provide a safe space for them to speak out and share any concerns they have.

Staff must be more vigilant in their day-to-day work with children when the above vulnerabilities are known and report all concerns immediately to the Designated Safeguarding Lead.

3. CHILDREN IN NEED OF A SOCIAL WORKER

Children who have been allocated a social worker may have experienced abuse including neglect and belong to a family that has many complex circumstances. Staff should recognise that these children will have experienced adversity and trauma that can leave them vulnerable to further harm, as well as educationally disadvantaged, and have a negative impact on their attendance, learning, behaviour and mental health.

When making decisions about safeguarding, carrying out risk analysis, making a safeguarding response to concerns such as unauthorised and persistent absence, and providing pastoral and academic support, the school will take seriously the fact that the child in need of a social worker will require enhanced pastoral and academic support alongside that provided by statutory services. School is also committed to providing further pastoral and academic support to children who have had historic contact with a Social Worker, in recognition that the abuse and trauma is likely to have an impact on the child beyond the duration of the involvement of statutory services.

Children who are known to a Social Worker are discussed during half termly Highlighting meetings. Any additional pastoral support needed by the child is then put into place if required. All records of children known to Social Care are tracked on CPOMS. The school will co-operate with the Virtual School, which now has a non-statutory responsibility for the strategic oversight of the educational attendance, attainment, and progress of children known to a social worker. Through half termly Highlighting meetings and termly Pupil Progress Meetings staff will monitor the wellbeing and academic progress of those children who are known to a Social Worker.

4. CHILDREN REQUIRING MENTAL HEALTH SUPPORT

All staff have an important role in supporting the mental well-being of children and to identify behaviour that may suggest a child is experiencing mental health problems. All staff need to recognise that mental health may be an indicator that a child has suffered or is at risk of suffering abuse, neglect, or exploitation or other adverse experiences.

Staff should be aware of the impact that trauma, bereavement, family adversity, domestic abuse, bullying, discrimination and other safeguarding concerns can have on a child's emotional wellbeing and mental health

~~Staff should be aware of the trauma and mental health impact on a child who has had adverse childhood experiences including abuse, bereavement and separation of parents. Staff should also be aware that the pandemic has had a negative impact on the mental health of many children, some of whom have never previously experienced difficulties with their mental health. However, all staff should be clear that only appropriately trained professionals should attempt to make a diagnosis of a mental health difficulty.~~

Staff should recognise that safeguarding concerns and mental health difficulties can often overlap and interact. Children experiencing mental health difficulties may be more vulnerable to safeguarding risks, whilst children who have experienced abuse, neglect, exploitation or trauma may present with emotional, behavioural or mental health needs. Early identification and

appropriate support can help prevent concerns from escalating and promote positive outcomes for children.

Whilst all staff should be alert to behaviour, presentation and emotional responses that may indicate a child is experiencing difficulties with their mental health or wellbeing, only appropriately trained professionals should attempt to make a diagnosis of a mental health condition. Concerns about a child's mental health should be discussed with the Designated Safeguarding Lead and considered alongside any other safeguarding information known about the child.

The school is committed to promoting positive mental health and emotional wellbeing through a whole-school approach. Appropriate support will be provided at the earliest opportunity, and where necessary the school will work in partnership with parents/carers and relevant agencies to ensure that support is coordinated and proportionate to the child's needs.

The school promotes positive mental health through a whole-school approach to ensure all pupils feel safe, supported and able to thrive. Staff should report any mental health concerns to the Designated Safeguarding Lead (DSL). The school's Mental Health Lead is Amelia Chau, Deputy Headteacher, who is a member of the Senior Leadership Team. The Mental Health Lead coordinates support, works with families and external agencies, and oversees referrals to specialist services. The school works in partnership with the Tower Hamlets Education Well-being Service (THEWS) and continues to develop its whole-school approach to mental well-being. All staff have a responsibility to promote positive mental health and respond appropriately to concerns.

5. LOOKED AFTER CHILDREN, PREVIOUSLY LOOKED AFTER CHILDREN (LAC and PLAC) & CHILDREN IN KINSHIP CARE ARRANGEMENTS

The most common reason for children becoming looked after is as a result of abuse including neglect.

Staff need to have the skills, knowledge and understanding to safeguard Looked After Children in recognition of their heightened vulnerability.

The DSL and Designated Teacher will work together alongside relevant agencies and take immediate action to safeguard and provide support to this vulnerable group of children.

Amelia Chau, Deputy Headteacher, is responsible for promoting the educational achievement of looked-after children and previously looked-after children in line with statutory guidance.

As part of their role, the designated teacher will:

- Work closely with the Pastoral Support team to ensure that any safeguarding concerns regarding looked-after and previously looked-after children are quickly and effectively responded to
- Work with virtual school heads to promote the educational achievement of looked-after and previously looked-after children and Care Leavers, including discussing how pupil premium plus funding can be best used to support looked-after children and meet the needs identified in their personal education plans

The school's Designated Safeguarding Lead will work with the local authority's Personal Advisor appointed to guide and support Care Leavers, so that any issues or concerns affecting the care leaver can be explored and effective support put in place.

The school will work with the Tower Hamlets Virtual School to promote and champion the attendance, attainment and progress of children in kinship care arrangements. Since September 2024, the Virtual School has a non-statutory responsibility to promote the education of children in kinship care arrangements regardless of whether the children have been previously looked after by the Local Authority. Kinship Care is any situation in which a child is being raised in the care of a friend or family member who is not their parent. The arrangement may be temporary or longer term. Examples of kinship care arrangements include Private Fostering Arrangements, Special Guardianship Order, and Child Arrangements Order, where the child is being cared for by a relative or friend who is not a parent.

6. CHILDREN WITH SPECIAL EDUCATIONAL NEEDS AND DISABILITIES

Children with special educational needs and disabilities (SEND) or physical health issues can face additional safeguarding challenges. Additional barriers can exist when recognising abuse and neglect in this group of children, which can include:

- professionals and other adults making assumptions that indicators of possible abuse such as behaviour, mood and injury relate to the child's disability without further exploration
- the potential for children with SEN and disabilities or certain medical conditions being vulnerable to experiencing peer exclusion and isolation and being disproportionately impacted by behaviours such as bullying (including prejudice-based bullying), without outwardly showing any signs;
- children not understanding that what is happening to them is abuse; and
- communication barriers when reporting abuse and difficulties in overcoming these barriers.
- the need for intimate care or that these children are isolated from others and that these children are more likely to be dependent on adults for care, and
- children with SEN and disabilities may have issues understanding the impact of their behaviour or the consequences they receive. They may be unable to understand the difference between fact and fiction in online content and then repeat the content/behaviours in school or college.

For some disabled children, their dependency on parents and carers for practical assistance in daily living, including intimate personal care, may increase their risk of exposure to abusive behaviour. Some children may also have an impaired capacity to resist or avoid abuse. Looked After Disabled Children may be particularly susceptible to possible abuse because of their additional dependency on residential and hospital staff for day to day physical care needs.

Further information on safeguarding SEND children is available in the non-statutory guidance Safeguarding Disabled Children (2009), NSPCC Safeguarding Children with Special Educational Needs and Disabilities (May 2022), and NSPCC Safeguarding d/Deaf Children and Children who have disabilities at greater risk of abuse (September 2025), but staff should speak with the DSL and SENDCO in the first instance.

All staff are regularly trained to understand and be aware of the additional barriers that exist when safeguarding children with SEND. All staff need to be aware that children with SEND may be more

vulnerable when online and using digital platforms, and it is important that Online Safety lessons and related advice are tailored to their individual needs.

The school's SEND Policy and Offer outlines how children with SEND are supported at Thomas Buxton Primary School.

CHILDREN WITH MEDICAL CONDITIONS

Children with medical conditions may face additional safeguarding vulnerabilities, particularly where their condition affects communication, independence, emotional wellbeing or attendance. Staff should be mindful that safeguarding concerns may present differently and should work alongside health professionals and parents to support these children.

Children with medical conditions may be at an increased risk of being neglected, abused or exploited by persons inside or outside of their family unit because of their medical condition. This might occur where relevant information about a child or young person's medical condition is not provided to a school or where they are repeatedly sent without essential medication, thereby putting the individual at risk. In these cases, the school will take appropriate action and make referrals to the Children Social Care.

7. CHILDREN ABSENT FROM EDUCATION & CHILDREN MISSING EDUCATION

The school closely monitors attendance, absence, suspensions, and exclusions. A child absent from education, whether prolonged or on repeat occasions, can be a vital warning sign of a wide range of safeguarding issues and is a potential indicator of abuse and neglect, including child sexual abuse, child sexual exploitation, and child criminal exploitation (county lines).

In accordance with the DfE's statutory guidance [*Working together to improve school attendance*](#), the school follows up on absences and addresses persistent and severe absence as part of its safeguarding duty. Such an approach prevents the risk of these children becoming children missing education in the future. Staff address daily absence and persistent absence as soon as these problems emerge as part of school's early help response. Staff should be alert to children already known to be vulnerable especially Children known to a Social Worker and Looked After Children, since absence from education may increase known safeguarding risks within the family or in the community. Staff must also be alert to signs of children at risk of travelling to conflict zones, female genital mutilation and forced marriage.

As a maintained school Thomas Buxton Primary School, is required by law to have an admission register and an attendance register. All pupils must be placed on both registers. The school should hold more than one emergency contact number for each pupil 'where reasonably possible'. The school follows the Attendance Policy.

No pupil will be deleted from the admissions register under any of the following circumstances:

- Where a child has been taken out of school by their parents and is being educated outside the school system (*e.g. elective home education*);
- Where a child has ceased to attend school and no longer lives within reasonable distance of the school;
- Where a child is in custody for a period of more than four months due to a final court order and the school does not reasonably believe they will be returning to the school at the end of that period; and, where a child has been permanently excluded.

PROCEDURES FOR CHECKING ABSENCES WITHIN THE SCHOOL

The registration is completed twice a day; every morning by 9:00 and by 1:30 pm in the afternoon so that absence calls can be made as soon as possible to follow up on any unexplained absences.

Daily checks are made where children are absent and notification of the reason for absence has not been received by the school.

The School will monitor 'blocks of absences' occurring for all children including those who are particularly vulnerable.

The School will monitor when a child applies for or does not return from extended leave in discussion with the AWA.

Missing Children:

- Unexplained absences are marked as unauthorised absence
- If parents/carers fail to inform School of reason for absence, the Attendance Lead will contact the parents/carers.
- If this is unsuccessful, the School will persist with alternative contacts until the child's whereabouts are known.
- School has been unable to make contact with parents/carers we will make a formal referral to the Attendance and Welfare Team.
- The School will ensure the appropriate local authority CME form is complete in all cases when a child is missing or about to be removed from the School register. All efforts will be made to confirm new address, contact details and school placement whether in UK or abroad.
- In all applicable cases, the Local Authority will be notified when the condition for deletion is met, but not before the child is deleted from the admission register. This enables the Local Authority to follow up on any concerns that may exist around the child's welfare.
- Notification to London Borough of Tower Hamlets of Child taken off School Admissions and Attendance Registers

Governors are kept informed of pupil's attendance, pupil admissions and leavers termly.

When a pupil does not return to school and the whereabouts of the child and their family are not known, the school will make reasonable enquiries and refer the child to the Attendance & Welfare Advisor to support with those enquiries to ascertain the child's whereabouts, and only after these steps have been taken refer to the Local Authority using a Missing Children referral form.

Contact: LBTH CME Officer, Tower Hamlets Education Safeguarding Service,
Saadia.Anwer@towerhamlets.sch.uk 020 7364 3426 / 07562 431 817

Children missing education are children of compulsory school age who are not registered pupils at a school and are not receiving suitable education otherwise than at a school. Children missing education are at significant risk of underachieving, being victims of harm, exploitation or radicalisation, and becoming NEET (not in education, employment or training) later in life.

8. ELECTIVE HOME EDUCATION

The school recognises that parents have a legal right to electively home educate their child at home; however, it is expected that the parents' decision to do this is made with their child's best education and best interests at its heart. Staff should be aware that even though most home educated children have a positive experience, this is not the case for all, and home education can mean some children are less visible to the services that are there to keep them safe and supported in line with their needs.

When a parent informs the head teacher of their intention to electively home educate their child, the school will convene and coordinate a meeting between the LA, relevant school staff, parents and all key professionals currently working with the child and family. In accordance with Keeping Children Safe in Education and LBTH Policy this meeting must occur before any final decision is made by the parents, to ensure that the best interests of the child have been taken fully into account and carefully considered. The occurrence of this meeting is especially important when the children have known vulnerabilities including Children known to a Social Worker and children with SEND.
